Interim report January - June 2025

Financial overview

The company continued to focus on stabilising property management and improving operating efficiency. Asset and tenant reviews were prioritised to distinguish immediate from long-term needs; selective CAPEX discussions were initiated to support future earnings.

Significant events during the period

Consolidated portfolio and tenant reviews were carried out, with initial technical assessments. Security procedures and tenant management practices were strengthened across the portfolio.

Significant events after the end of the period

Active tenant dialogues and operational follow-ups continued. Preparations for targeted fit-outs and maintenance, ongoing security measures at selected assets, re-letting initiatives following a tenant insolvency, and evaluations of potential non-core disposals.

Note 1 - Significant accounting principles

General information

The Consolidated financial statements comprise of the Parent Company HL18 Property Portfolio AB (publ), with corporate identity number 559337-2559, and its subsidiaries. The Group's primary operation is property management. The Parent Company has its registered office in Stockholm, Sweden. The address of the head office is Villagatan 13A, 114 32 Stockholm.

Standards and legislation applied

The consolidated financial statements have been prepared in accordance with IFRS® accounting standards ("IFRS") as adopted by the European Union ("EU"). The Group's interim report is prepared in accordance with IAS 34 Interim financial reporting and applicable parts of the Swedish Annual Accounts Act (1995:1554). The interim report of the Parent company is prepared in accordance with the Swedish Annual Accounts Act chapter 9, Interim financial reporting and Recommendation RFR 2 Accounting for Legal Entities.

The Group and Parent Company have applied the same accounting principles, basis of calculation, and assumptions as those applied in the Consolidated financial statements of HL18 Property Portfolio AB (publ) as of and for the financial year ended 31 December 2024. For a complete description of the Group's and Parent Company's applied accounting principles, see note K1 & M1 of the Consolidated financial statements of HL18 Property Portfolio AB (publ) as of and for the financial year ended 31 December 2024. In addition to the financial statements, disclosures in accordance with IAS 34 appear in the remainder of this interim report.

All amounts in the notes are presented in thousands of Swedish krona ("SEK thousand"), unless otherwise indicated.

Note 2 - Key estimates and assumptions

In preparing the interim financial statements, corporate management and the Board of Directors must make certain assessments and assumptions that impact the carrying amount of asset and liability items and revenue and expense items, as well as other information provided. The actual outcome may then differ from these assessments if other conditions arise. Estimates and assumptions are reviewed on a regular basis.

Investment properties

When valuing investment properties, assumptions and assessments are made of, among other things, future cash flows and the determination of a discounting factor (yield requirement). Uncertainty in these estimates and judgments may entail that the carried value of investment properties are adjusted in the next financial period. To reflect the uncertainty that exists in the assumptions and assessments made, a sensitivity analysis is presented in note 4.

Asset acquisitions versus business combinations

A company acquisition can be classified as either a business combination or an asset acquisition. A company acquisition whose primary purpose is acquiring a company's property (i.e. where the company's potential property management and administration are of secondary importance to the acquisition) is classified as an asset acquisition. Other company acquisitions are classified as business combinations.

For asset acquisitions, no deferred tax is recorded in the acquisition. Instead, a possible tax discount reduces the acquisition cost of the property, meaning that changes in value will be affected by the tax discount in the subsequent valuation.

No asset acquisitions or business combinations have occurred during the period.

Note 3 - Rental income

The lease maturity structure regarding the property portfolio is shown in the table below, where contract value refers to annual value.

Investments in existing properties	-	-7 152
Change in value	-	81 225
Closing balance	788 700	788 700

Investments during the period

No investments in existing properties have occurred during the period.

Valuation of the property portfolio

The same external valuation applied for the financial year ended 31 December 2024 has been applied in connection with this interim report. All external valuations were conducted by an external authorised and independent valuation agency and take place in accordance with IFRS 13 level 3.

Investment properties are valued based on a cash flow model, whereby each property is assessed individually on future earning capacity and the market's return requirements. At the end of the period, the property portfolio was valued at KSEK 788.700.

Valuation method

The discounted cash flow (DCF) model values a property based on the present value of its expected future cash flows and estimated residual value. The calculation period used in the valuation is 10–20 years.

The required rate of return has been assessed individually for each property. A present value calculation of all cash flows is performed in the model with a discount rate corresponding to the assumed required rate of return and the average inflation assumption during the calculation period. The required rate of return range is 5.5 – 8.00 per cent.

Sensitivity analysis

The estimation of the fair value of the properties is based on future income potential and the market's required rate of return and always involves some degree of uncertainty. The table below shows the change in fair value based on changes in individual valuation parameters.

Input data	Change	Increase	Decrease
Rent	+/- 5%	40 940	-40 953
Operating and maintenance costs	+/- 5%	-9 421	9 412
Vacancy	+ 3%	-36 776	N/A

Note 7 - Restatement

In connection with the preparation of this interim report, management has carried out a review of the historical financial statements prepared by the previous owners. As a result of this review, a number of errors have been identified. These are described in more detail below, separately for the Group and the Parent Company.

Restatement of the Group's financial statements as of and for the interim period ended 31 March 2024

During the first quarter of 2024, transaction costs amounting to SEK 1,137 thousand related to the Group's refinancing were incorrectly reported as Central administration costs in the Condensed consolidated statement of profit or loss. As part of this restatement, these costs have been reversed and instead recognized as Prepaid expenses in the Condensed consolidated statement of financial position. Consequently, the Condensed consolidated statement of changes in equity and the Condensed consolidated statement of cash flow have also been adjusted.

Restatement of the Group's financial statements as of and for the interim period ended 30 June 2024

During the first half of 2024, transaction costs amounting to SEK 4,624 thousand related to the Group's refinancing were incorrectly reported as Central administration costs in the Condensed consolidated statement of profit or loss. As part of this restatement, these costs have been reversed and instead recognized as Prepaid expenses in the Condensed consolidated statement of financial position. Consequently, the Condensed consolidated statement of changes in equity and the Condensed consolidated statement of cash flow have also been adjusted.

Furthermore, management fees totaling SEK 8,810 thousand have been reclassified from Property management to Central administration costs in the Condensed consolidated statement of profit or loss.

Restatement of the Group's financial statements as of and for the interim period ended 30 September 2024

During the first three quarters of 2024, transaction costs amounting to SEK 6,864 thousand related to the Group's refinancing were incorrectly reported as Central administration costs in the Condensed consolidated statement of profit or loss. As part of this restatement, these costs have been reversed and instead recognized as Prepaid expenses in the Condensed consolidated statement of financial position. Consequently, the Condensed consolidated statement of changes in equity and the Condensed consolidated statement of cash flow have also been adjusted.

Furthermore, several classification errors have been restated in the Condensed consolidated statement of profit or loss. As a result, Property management decreased by SEK 1,896 thousand, Central administration increased by SEK 11,257 thousand, and the net effect of these changes, amounting to SEK 9,361 thousand, has been recognized as Change in value of investment properties.

Restatement of the Parent Company's financial statements as of and for the interim period ended 31 March 2024

During the first quarter of 2024, transaction costs amounting to SEK 1,137 thousand related to the Group's refinancing were incorrectly reported as Other external expenses in the income statement. As part of this restatement, these costs have been reversed and instead recognized as Prepaid expenses in the balance sheet. Consequently, the Statement of changes in equity and the Statement of cash flow have also been adjusted.
